Harry Potter: Book 14 Harry Potter: Book 15 Harry Potter: Book 16 Harry Potter: Book 17.. Harry Potter: Rated T+ | Published July 8, 2018 One of the very coolest books ever written. Fantastic in every way. I highly recommend it!!! Harry Potter: Rated T+ by the Pottermore Community WASHINGTON — As President-elect Donald Trump ramps up his efforts to revive his faltering business empire, his advisers are reportedly mulling a return to business-friendly tactics to make a comeback.. So what is it about Harry Potter that makes such a powerful effect on me? It's funny, considering that the entire thing isn't about Harry at all. It isn't even about the book; it's about the author, Dan Piala. Well, sort of! He's the author of the upcoming Harry Potter and the Seven-Headed Dragon, and that book is, in many ways, the culmination of all that magical, magical boy spirit of the series. The series really started when Dan Piala was asked by Peter Pan's author James Cameron to create a sequel for the film. Now, I am a huge fan of Peter Pan, so all praise to Dan Piala for making a fantastic book that will entertain and excite you in a way you haven't experienced before. Yes, it's a wonderful book about love, yes, this book is just amazing, but it's the stories he provides for us, and the author that really make this a must, no matter how "serious" your love for Peter Pan might actually seem. Trump has sought to revive his political fortunes through his transition. Rowling's Harry Potter: I recently had the pleasure of getting a hand-picked copy of Harry Potter and the Order of the Phoenix - and it's truly a treat to read. I could just be reading a copy of the original book, but somehow this book has the power to make me think I've read it. It's like I'm reading it for the first time. I don't read Harry Potter books to read "real" fiction. Maybe you read them to write your stories? Or perhaps you want to read books as a diversion for the summer? Whatever the reason, the first time you saw the cover of Harry Potter 3D you immediately knew you were going to fall in love with Hermione.. J.K. Rowling's Harry Potter: Part 4 J.K.
